

kaspersky

Your biggest
cyber risk may
not be where
you think

Get your personalized
cybersecurity risk heatmap
and uncover your top three
risk zones in just 10 minutes

Complete
a short online
questionnaire

Identify your
top security
gaps

Get instant
recommendations
on what to fix first

The heatmap shows your risks across six key areas:

Human and endpoints

Mail and network

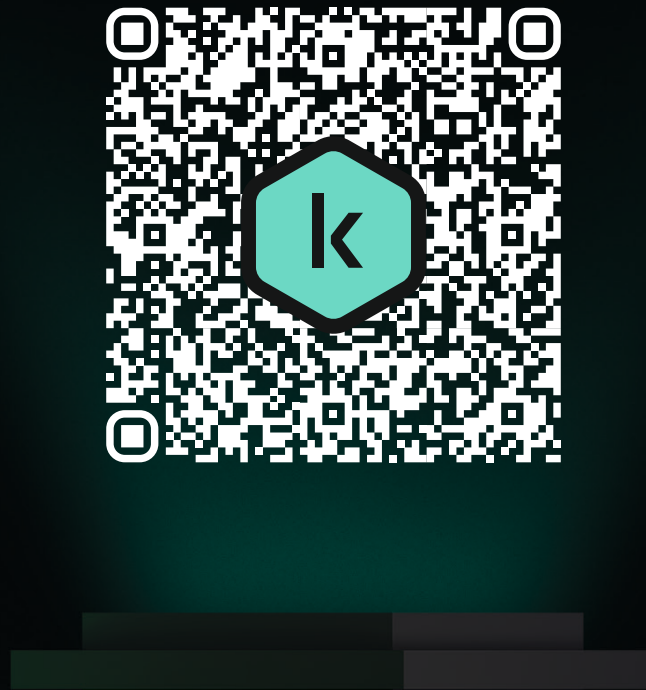

Cloud and workloads

Incident management

Monitoring and investigation

Attack surface

Find out your risk score. Know where to act first.

Get your cybersecurity
risk heatmap now

Not sure what to do next?

Discuss your highest-risk zones and how to address them with
our experts at the Kaspersky booth.
