

A man and a woman are in a server room, looking at a laptop. The man is on the right, wearing glasses and a blue jacket. The woman is on the left, wearing a white shirt. They are both looking at the laptop screen. The background is a server room with blue lighting and server racks.

# De-Risk & Accelerate Your OCI Journey with RAPID Assessment

July 2026

Make it **real.**

## Modernize and Migrate to OCI with Capgemini & Matilda

If your migration plan depends on siloed data sheets and guesswork, the risk isn't 'later', it's now!

### What if your OCI journey came with real-time intelligence built in at every step?

Capgemini, in collaboration with Matilda Cloud, provides a compliance-first platform powered by real-time AI for infrastructure assessment, migration orchestration, and ongoing operations.

Most OCI infrastructure programs aren't delayed by the migration itself, but by the planning, execution, and at-scale operational complexity. Common challenges include:

-  **No clear view of the current cloud estate:** Disconnected inventories make it hard to know what's running, where, and what it's costing.
-  **Slow migration decisions due to manual analysis:** Planning drags for weeks without fast, consolidated insights and reports.
-  **Cloud spend leakage with no clear root cause:** Underutilized, oversized, or orphaned resources inflate costs without visibility.
-  **Unreliable cost and value projections for cloud-to-cloud moves:** Lack of TCO/ROI and target-cloud projections make budgeting and approvals difficult.
-  **Hidden compliance and security exposure:** EOS/EOSL risks, vulnerabilities, and compliance gaps surface late and create rework or delays.

## Start fast with Matilda RAPID Assessment

Capgemini, in collaboration with Matilda's RAPID Assessment, provides AI-driven insights within 24-48 hours to evaluate Oracle and non-Oracle workloads, identifying usage patterns, cost inefficiencies, optimization opportunities, compliance risks, vulnerabilities, end-of-support risks, and configuration gaps. Delivered via a secure, no-deployment SaaS model, it enables fast, non-intrusive cloud migration planning.

### Assesses Cloud Environments using

Cloud APIs

Billing Data

RVTools

## RAPID Assessment Capabilities

### AI usage insights and right-sizing

Recommends the right instance size and family using ML across CPU, memory, network, and storage.

### Fast multi-cloud discovery

Inventories assets across major clouds and VMware with clear usage and cost visibility.

### Mapping and modernization view

Breaks down compute, VMs, databases, storage, and networks, including IaaS-to-PaaS paths.

### Waste and orphan cleanup

Flags idle or orphaned resources driving unnecessary spend.

### Decision-ready guidance

Provides cost projections, high-level TCO/ROI, and Well-Architected best-practice findings.

## Comprehensive Reporting Outputs and Deliverables (24-48 Hours)

Upon completing the RAPID Assessment, you receive:

### Executive cost and projection report -

High-level view of current cloud spend, cost leakage, and projected costs for cloud-to-cloud or multi-cloud strategies. This enables fast stakeholder decisions with clear financial direction.

### Cloud inventory and utilization summary -

A complete inventory view across multi-cloud and virtualized environments, including utilization signals and right-sizing recommendations. It provides a rapid, reliable baseline for migration planning and optimization.

### Risk and compliance insights report\* -

Compliance risk assessment, vulnerability insights, and EOS/EOSL exposure indicators which supports early risk mitigation and governance planning.

\*Risk and Compliance Insights Report applies only to the Cloud API-based RAPID Assessment. This report is not included in Billing-based or RVTools-based RAPID Assessment engagements.

## Benefits

**~50%**

reduction in infrastructure spending through smarter optimization

**3x**

productivity improvement driven by automated, precise execution

**4x**

more efficient than manual migration

**40%**

lower TCO in 3 years by improving cost-efficiency and operational effectiveness

**Zero Cost**

Oracle's preferred discovery RAPID assessment tool for cloud migrations at no cost

## Capgemini value with Matilda

- **Risk reduction & delivery assurance:** Proven methodologies and global delivery model. Deep OCI, Oracle, and hybrid cloud expertise.
- **Advisory & strategy leadership:** Business-aligned cloud strategy and roadmap development.
- **Comprehensive discovery & migration strategy:** In-depth profiling of environments with tailored migration plans and ROI analysis.
- **End-to-End OCI transformation:** From discovery to managed services we enable Industry-specific architectures, compliance frameworks, and seamless migration of complex, multi-level virtual machine environments, including multi-tier architectures where multiple VMs support interconnected application layers with Oracle and Non-Oracle workloads in Cloud.

**Make informed decisions, mitigate risks, and reduce costs in days. Ready to accelerate your OCI migration program with Capgemini?**

## About Capgemini

Capgemini is a global business and technology transformation partner, helping organizations to accelerate their dual transition to a digital and sustainable world, while creating tangible impact for enterprises and society. It is a responsible and diverse group of 340,000 team members in more than 50 countries. With its strong over 55-year heritage, Capgemini is trusted by its clients to unlock the value of technology to address the entire breadth of their business needs. It delivers end-to-end services and solutions leveraging strengths from strategy and design to engineering, all fueled by its market leading capabilities in AI, generative AI, cloud and data, combined with its deep industry expertise and partner ecosystem. The Group reported 2025 global revenues of €22.5 billion.
